

# Business reporting on biodiversity

 **edf** Claire Varret – chef de mission biodiversité – Direction du Développement Durable

 Plateforme de l'Initiative Française pour les Entreprises et la Biodiversité

## Climate Change

Go beyond the requirements of the 2°C trajectory set by COP21 by drastically reducing our CO2 emissions

## People Development

Adopt industrial groups' best practices in people development: health & safety, gender diversity, and social advancement

## Fuel Poverty

Offer all vulnerable people information about and support with energy use and energy benefits

## Biodiversity

Launch a positive approach to biodiversity, not limited to understanding and reducing the impacts of our activities in the long run but having a positive effect on biodiversity

## Energy Efficiency

Innovate through digital energy efficiency solutions to enable all customers to use energy better

## Dialogue & Consultation

Systematically organise a process of transparent and open dialogue and consultation for every new project around the world

# Corporate Social Responsibility

UNEP

WCMC

# Reporting : why, for who, for what ?

- Public authorities
- Financial actors
  - EF rating agencies
  - Markets
- Internal shareholders
  - Management
  - Staff
- Civil society
  - NGOs

Plateforme de  
l'Initiative Française pour  
les Entreprises et la Biodiversité

# Reporting documents

- Reference document
  - According to GRI, recognized by EF rating agencies : management & objectives / location of sites / impacts / compensatory measures / protection – restauration
- EF rating documents
- National Biodiversity Strategy – voluntary engagement

## G4-EN14

	IUCN categories of threatened species					
	Global red list			Regional red list		
	CR	EN	VU	CR	EN	VU
Mainland France	6	22	53	29	88	260
Overseas dept. & Fr. islands	13	12	29	43	72	144

CR = critically endangered; EN = endangered; VU = vulnerable.

# What needs to be done ?

For the IUCN French Committee's Buz partners :

- 2013 : providing companies with recommendations on how to write a high-quality biodiversity report included biodiversity indicators
- 2015 : review
- Publish more informations on dependencies and impacts on biodiversity and ecosystem services
- Broach the subject of the results obtained with regard to biodiversity
